

MedWatchers

We Speak Your Language

MedWatchers is the leading provider of pharmacy care management services in 27 multiple languages. Our specially trained, multi-lingual and culturally competent pharmacists, outreach to more than 2,000,000 patients annually. Our results indicate improved clinical care, better outcomes, and higher quality scores for our clients.

Our clients include health plans, regional hospitals, MTM vendors and PBMs and can testify that MedWatchers is reliable, and loyal, putting patients first. We work

within our clients' platforms and can support telehealth programs.

MedWatchers has 3 call center locations in California, covering calls in all U.S. time zones.

The success of our work comes from our passion for patient care, our ability to engage and communicate with patients in their preferred language in their preferred setting, and our commitment to improving clinical outcomes.
